SUMMARY

Senior Mobile Engineer & Development Lead with 6+ years on Flutter, Kotlin, and Swift, specializing in clean-architecture cross-platform builds, Flutter↔native bridges (Method Channels), and disciplined mobile release pipelines. Shipped 19 production apps (13 still live across iOS + Android) including KGK Buy Diamonds — the B2B trading app putting 50,000+ certified diamonds in front of wholesalers in 10+ countries — and led 4 promotions through Jr → Senior Flutter Dev in 5 years. Currently leading the mobile practice at KGK InfoTech LLP, owning architecture + delivery for KGK Buy Diamonds and KGK HRMS. Open to senior IC, mobile lead, and architecture roles in product fintech, B2B SaaS, and consumer mobile.

EXPERIENCE

KGK InfoTech LLP

Apr 2025 — Present

Mobile Development Team Lead

Surat, Gujarat, India

—

Lead a 7-person cross-functional team (2 mobile, 1 backend, 1 web, 1 design, 2 QA) shipping KGK Buy Diamonds — the Flutter B2B trading app surfacing 50,000+ certified diamonds to wholesalers across 10+ countries — and KGK HRMS; own architecture, code review, sprint scoping, and post-release crash triage.

—

Imposed Clean Architecture + BLoC as the team standard across the KGK mobile portfolio, cutting cross-feature merge-conflict rate ~65% and reducing onboarding time for new engineers from 5 → 2 weeks.

—

Re-engineered the inventory-grid performance path (virtualised lists, server-driven filter UX, redesigned payload shape) — pushing sustained scroll FPS from 50 → 60 on entry-level Android and cutting first-paint of the grid screen from 5s → 2s under traders' real network conditions.

—

Cut KGK Buy Diamonds APK size by 10% and cold-start latency by 45% via tree-shaking, deferred asset loading, and Hive cache priming — measured against mid-tier Android 12 devices (Samsung A-series, Xiaomi Redmi 10/11).

—

Own the mobile release pipeline end-to-end (Git workflow, CI builds, Jira-linked release notes, App Store + Play Store delivery), reducing release cycle time from 4 → 1.5 days and pushing crash-free sessions to 99.9% across both stores.

—

Mentor 5 of the 7-member cross-functional team; 2 internal promotions in 12 months. Partner with non-technical diamond vendors across 10+ countries to translate trading workflows + multilingual stakeholder intent into shippable scope.

- Promoted 4× in 5 years: Jr Flutter Dev → Flutter Dev → Expert Flutter Dev → Senior Mobile App Developer.
- Led 19 production app builds across 4 international markets (India, Canada, Japan, Korea) and 5 industries — agritech (Ukko Agro / Foresite), health-data AI (Lili), JP ed-tech (Studymap → Remody), KR consumer (Havitglam, Tarot Cat, Today's Quote) — sustaining 99% post-launch crash-free sessions across the portfolio.
- Shipped Flutter ↔ native bridges via Method Channels (Kotlin + Swift) for 4 projects where Dart alone wasn't enough — background location for Warden Tracker, USB-serial TPMS telemetry for Setera, secure WebSocket telemetry for Foresite, native maps for BookMrk Delivery.
- Sustained a 4.23★ App Store rating across 30+ reviews on Lili (Health Data AI) by refactoring chat-history bursts onto a windowed BLoC stream — cut cold-start jitter and memory pressure during heavy biometric-data ingestion.
- Drove Clean Architecture + BLoC adoption across 10 new builds; ran code review for 20+ engineers and mentored several into senior IC trajectories.
- Owned mobile delivery on every engagement: scoping, sprint planning, CI/CD pipelines (Codemagic / GitHub Actions), Play Store + App Store submissions, and post-launch crash triage (Crashlytics).

SELECTED PROJECTS

KGK Buy Diamonds	2025 — Present
<i>Mobile Development Team Lead</i> · Flutter, Dart, Clean Architecture, BLoC, REST APIs (+2 more) KGK InfoTech LLP	
Global B2B diamond-trading platform serving 10+ countries — Flutter app + Clean Architecture + BLoC.	
Lili — Health Data Assistant	2021 — 2023
<i>Senior Flutter Developer</i> · Flutter, Dart, REST APIs, Fitbit API, Apple Health (+3 more) Sadguru Soft	
AI health assistant that ingests Fitbit and Apple Health data and answers questions in plain language.	
Foresite	2022 — 2024
<i>Flutter Developer</i> · Flutter, Dart, REST APIs, SQLite, Offline-first sync (+5 more) Sadguru Soft	
Smart agriculture app for Ukko Agro — crop monitoring, disease modelling, and real-time field telemetry.	
Locket	2022 — 2023
<i>Flutter Developer (Lead)</i> · Flutter, Dart, Kotlin, Swift, Method Channels (+3 more) Sadguru Soft	
Real-time location sharing with battery + speed telemetry and WebSocket group chat. Native bridges everywhere.	
Lux ECards	2021 — 2023
<i>Flutter Developer</i> · Flutter, Dart, Firebase, REST APIs, Custom canvas renderer (+4 more) Sadguru Soft	
Multilingual Indian invitation card editor — canvas, layers, vector text, real-time preview.	
Studymap	2022 — 2024
<i>Flutter Developer</i> · Flutter, Dart, REST APIs, Reactive programming, Real-time sync (+1 more) Sadguru Soft	
Japanese ed-tech: AI-generated study content and synchronised group study sessions.	

SKILLS

MOBILE & NATIVE Flutter, Dart, Kotlin, Swift, Java, Android (native), iOS (native), SwiftUI, UIKit, Jetpack Compose, Kotlin Multiplatform	ARCHITECTURE Clean Architecture, BLoC, Method Channels (Flutter ↔ native), Performance optimisation, Memory management, MVVM, SOLID
WEB & BACKEND React, Next.js, Node.js, Express, NestJS, TypeScript, Ktor, Tauri	DATA PostgreSQL, MySQL, MongoDB, Firebase, SQLite
LEADERSHIP & PROCESS Team management, Mentorship, Agile / Scrum, Sprint grooming, Code review, Client consulting	TOOLS & DEVOPS Git / GitHub / GitLab, CI/CD, AWS, GCP, Firebase Crashlytics, Jira / ClickUp, Playwright
AI DEV TOOLS Cursor, Claude Code, GPT	

EDUCATION

S.V. Patel College of Computer Application & Management

2017 — 2020

Bachelor of Computer Applications (B.C.A)

Katargam, Surat, Gujarat, India

CERTIFICATIONS

Certified Frontend Engineer in Flutter

Pro5

Ranked in top 5% of professionals
